# FWY·ISP

FAIRWAY INJECTABLE SOIL PENETRANT

A cost effective biodegradable formulation of Aqua-Aid soil penetrants designed to be injected into irrigation systems and/or incorporated into nutrient mixes.

FWY ISP (*Injectable Soil Penetrant*) is non-ionic, non-burning and non-toxic to all types of turf grasses.

FWY ISP (*Injectable Soil Penetrant*) is effective in irrigation systems to concentrations as low as one part per 200,000.

- Increases soil moisture and softens seed coat for better germination
- Uniform moisture and nutrient coverage
- Increases water infiltration and penetration
- Increases nutrient efficiency
  - Reduces run off and evaporation of applied water and nutrients
  - Money Back Guarantee

## COMPOSITION

**FWY ISP** is a non-toxic, non-ionic, non-flammable, non-corrosive and biodegradable formulation of surfactants and wetting agents.

### Active Ingredients:

17.0% Polyalkoxylated and carboxylated ester surfactants and wetting agents.

### Inert Ingredients:

83.0% Carrier Solution

FWY ISP is available in 55 and 250 gallon recyclable containers.\*

\*Check with your distributor for availability.

## APPLICATION RATES

### Irrigation Injection

Apply 1 to 2 quarts per acre through the irrigation system monthly or as needed.

### Fertigation

Mix proportionately to liquid nutrients to apply 1 to 2 quarts per acre per month or as needed. FWY ISP is compatible with most mixes between pH 2 and pH 12. A jar test should be performed before mixing.

### Overseeding

Apply 2 quarts per acre One week prior to overseeding. Immediately follow overseeding with second application.
