

Manufacturers of millions of quality lawn spreaders since 1946.

COMMERCIAL BROADCAST SPREADER

The best broadcast spreader on the market has been improved!

- Patent pending trim control device added
- Height is adjustable for operator convenience

Both improvements are retrofitable to our classic CB-85.

Other features include:

- improved, hi-impact, rust free hopper
- epoxy coated metal parts
- cushioned hand grips
- spring loaded on/off lever
- 5/8" #304 stainless steel axle
- heavy duty gears
- ball bearing wheels with grease seals
- 3/8" stainless steel agitator
- hopper screen

PRECISION, EXCELLENCE

Professionals who demand the best, choose PrizeLAWN drop and broadcast spreaders. This quality professional use drop spreader is a full 36" wide, designed for precision application and easy operation.

Features include:

- 10" x 3.5" pneumatic tires
- dual, shielded agitation to reduce operator load resistance
- agitator bar designed to prevent premature product breakdown
- stainless steel fasteners
- heavy gauge, 100 lb capacity hopper with precision welded construction
- highly visible, easy set rate adjustment
- positive on/off lever with locking pin.

COMMERCIAL DROP SPREADER

Available with rust-free stainless steel or durable epoxy coated steel hopper.
